

PROFESSIONAL CV

(June, 5, 2020)

Maria Csanádi

Connection: Institute of Economics, Centre for Economics and Regional Studies

Address: Tóth Kálmán u. 4. 1097 Budapest. office: T.3.40

email: csanadi.maria@krtk.mta.hu

phone: +36 30 8164260

Education and degrees:

1973 Karl Marx University of Economics, Budapest (M.Se. Thesis: Industrial Activity of General Whole Sale Co-operatives in Hungary Between 1968 and 1971)

1978 Doctoral. Thesis: Selectivity in the Distribution of Resources and Subsidies in Hungary

1993 PhD Thesis: System dependencies: The Impact of State-socialism on the Transformation in Hungary

2005 Academic Doctoral Thesis: A Comparative Model of Party-States: Structural and Dynamic Background of Similarities and Differences in Reproduction, Reforms, Collapse and Transformation

Languages

English, French, Italian, Portuguese (State exams) and spoken German

Research interest and current researches in progress:

- Institutionalized interdependencies between economic and political decision making in party-state systems.
- Structural similarities and dissimilarities between different party-state systems.
- Development and institutionalization of the new Hungarian power structure and comparative studies on this topic in Eastern Europe and China;
- Comparative theory the structure, operation and transformation of party-states systems, specifics of Chinese transformation;
- Impact of global crisis on system transformation in China and its spatial disparities; spatial disparities impact of global crisis on migration and institutionalizing policies (2009-2010); Spatial disparities of the impact of stimulus package in China on migration and on the dynamics of economic transformation (2010-2016)
- Common systemic ground behind the disparities of European and Chinese transformations
- Overinvestment and Economic Overheating in China after the Global Crisis: An Interpretation with a Comparative Model on Communist Systems
- Dynamics of anti-corruption campaigns and power redistribution in China
- Opening up the black box: transformation specifics through enterprise entry and exit in China and its relation to overinvestment
- Regional specifics of transformation in China through enterprise entry and exit and their relation to overinvestment (research in progress)
- Power and corruption: how to institutionalize authoritarian power and corruption in a captured democracy? The case of Hungary since 2010 (research in progress)

Teaching experience:

- Courses on "Structure of Interdependencies Between Political and Economic Decision-Making", "Political Criteria in the Selective Distribution of Resources in 1970-79 and in 1980-88", at Karl Marx University Regularly in Budapest University of Economics in comparative macroeconomics, each time the course reached my topic

- My model was on the curricula ELTE University Department of Sociology 2007 February-May Structure, dynamics and transformation of party-states, with a special view on Hungary and China József Attila University at Szeged doctoral and master school research on comparing Russian and Chinese transformations between 2008 and 2016, and at Pázmány Péter University since 2018-

Fellowships:

- Kellogg Institute, The Helen Kellogg Institute for International Studies, between 11 September - 15 December, 1992
- Cornell University, Department of Government in 1993 March
- East Asian Institute National University of Singapore, (2005 July-August)
- Oxford University China Center visiting fellow, 2009, March
